It is our goal as a team to provide the utmost in quality patient care with integrity and professionalism. Our patients are our number one priority and we are committed to exceeding their expectations. One way our office enhances the experience of our patients is by providing affordable dental visits. Unfortunately, discounts cannot be combined; therefore, our office will honor the discount that saves the patient the most money. **Discounts are only applicable to patients who do not have dental insurance.**

- **Senior Discounts** are available to patients 65+ visiting for a routine oral health examination. This appointment must include an exam, cleaning and any necessary x-rays. The discount is 10% when paid by cash/check or 5% when paying by credit card.
 - **The Early Payment Discount** is a 10 % courtesy for patients who have a treatment plan consisting of \$1500 or more and pay with cash/check at or before their first treatment visit. No discount is available for just “part” of the treatment plan.
 - **New Patient Visit:** When a new patient without insurance has a panoramic x-ray and four bitewings taken at their appointment, our office combines the x-rays into one large x-ray – saving the patient \$40.
 - **Child Fluoride and Cleaning:** As a courtesy to a child patient without insurance, when a child has a cleaning AND child fluoride on the same day our office combines the procedure into one - saving the patient \$15.
 - **Care Credit** is another great financial courtesy we offer our patients. Please do not forget to take advantage of the 0% interest payment options. Please visit www.carecredit.com or call our office to speak with a treatment coordinator for more information.
